Profile

Passionate about data analysis, machine learning, and web development, I am driven by the opportunity to contribute to high-quality projects and join teams that strive for excellence. My goal is to continue enhancing my skills in a stimulating academic environment and to engage in enriching master's-level courses at the university.

Education

Bachelor's in Computer Science - 3rd Year <i>Higher Institute of Computer Science and Mathematics, University of Monastir, Tunisia</i>	09/2024 – present
Bachelor's in Computer Science - 2nd Year <i>Higher Institute of Computer Science and Mathematics, University of Monastir, Tunisia</i>	09/2023 – 06/2024
Bachelor's in Computer Science - 1st Year <i>Higher Institute of Computer Science and Mathematics, University of Monastir, Tunisia</i>	09/2022 – 06/2023
Baccalaureate, Specialization in Mathematics <i>, Sayada Secondary School, Monastir Academy, Tunisia</i>	09/2021 – 06/2022

Professional Experience

AI Development Intern , Eoxis Development of a Generative AI Platform for Parcel Sorting Supervision - Designed and developed a Proof of Concept (POC) to automate data analysis and alert escalation. - Using Angular & Spring Boot for platform development. - Integrated Generative AI to detect anomalies and optimize real-time decision-making..	01/2025 – present paris, france
Web Developer & data scientist intern, ATS - Digital Dev - Learning and using Symfony as a backend framework. - Developing interfaces with Twig. - Managing and manipulating NoSQL databases with MongoDB. - Actively collaborating with company teams to complete projects. - Developed a chat system utilizing AI.	06/2024 – 07/2024 Tunis, Tunisia

Skills

Programming Languages

Python (Pandas, NumPy, Matplotlib, Scikit-learn, TensorFlow), Java, JavaScript, C, PHP

Databases

SQL, PL/SQL, MongoDB (NoSQL)

Web and Mobile Development

HTML, CSS, Angular, Bootstrap, Symfony, Twig, API consumption

Interpersonal Skills

Communication, teamwork, problem-solving, time management, adaptability

Projects

Sick or Healthy (Mini projet pour la matière Machin Learning),

10/2024

NumPy, Pandas, Matplotlib, scikit-learn, Linear Regression

- Analyzing medical data with NumPy, Pandas, and Matplotlib to visualize and manipulate the data.
- Implemented a regression model with scikit-learn to predict disease risk, demonstrating the application of machine learning in healthcare.

Chatbot AI (Mini projet pour la matière intelligence artificielle),

04/2024

Gemini API, Google Générative AI, Speech Recognition et pyttsx3

Development of an Advanced Chatbot in Python

- The chatbot is capable of understanding and responding to natural language queries, while also supporting speech recognition and text-to-speech synthesis for seamless interaction.

Certificates

- Data Cleaning & Preprocessing with pandas (20/11/2024)
"365datascience" [🔗](#)

- Développement Web Full Stack (10/05/2024)
"Udemy"

- Data Preprocessing with NumPy (20/11/2024)
"365datascience" [🔗](#)

- Artificial Intelligence ,LLM and ChatGPT(15/02/2025)
"Udemy"

- Data science and Machine Learning (16/10/2024)
"Udemy"

Organisations

Football

09/2022 – present

Passionate about football, member of the ISIMM university football team.

CPU ISIMM, Partnership Manager

02/2023 – 12/2024

Developed strategic relationships with various partners, enhancing my communication skills and ability to collaborate effectively in dynamic environments.

Microsoft Tech Club ISIMM, Treasurer

11/2022 – 12/2024

Actively participated in organizing events and competitions, strengthening my management skills.
