PROFILE

As a Computer Science student with a passion for web design and development, I have cultivated a robust foundation in programming languages and possess a keen eye for crafting visually appealing and functional websites. Alongside my technical prowess, I am sociable and relish building connections with individuals from diverse backgrounds.

My enthusiasm for meeting new people has propelled me to explore various fields through summer employment experiences. For instance, I worked at a nautical base, where I honed practical skills and engaged with customers from around the globe in an outdoor setting. Additionally, I gained valuable experience at an exchange office, where I facilitated foreign currency transactions.

These diverse experiences have not only expanded my skill set but also enriched my understanding of different industries and cultures.

WORK EXPERIENCE

Exchange office

Summer 2023

Manager :

- Conducted currency exchange transactions for customers, including buying and selling foreign currencies.
- Lead, mentor, and manage a high-performing marketing team, fostering a collaborative and results-driven work environment.
